A yellow ŠKODA FABIA is parked on a city street. The car is the central focus, shown from a rear three-quarter view. The license plate reads '3SZ 8426'. In the foreground, a man in a grey hoodie and black pants is walking past, blurred. To the right, a woman in a blue shirt and grey skirt is walking away, carrying a bag. A dog is running in the bottom right corner, also blurred. The background features a stone bridge with arches, trees, and a park-like setting.

MAKE YOUR CHOICE YOUR VOICE

Fab town. Urban legend. City slicker. This car may have many names. But there is nothing that defines the all-new ŠKODA FABIA more than the person driving it. Fresh, distinctive, and eager to impress, this car is equally at home next to the sidewalk or catwalk. Numerous aerodynamic details shape the car's raring-to-go attitude while the bold wheels have the crowds staring at its feet. Not to mention a perkier engine, sharp LED lights, high-level safety systems, a host of connectivity features, and enough room to pack all the compliments.

Being comfortable while being yourself has never been easier. The new FABIA isn't just the do-it-all city car. It's a classic original that's been remixed to urban perfection.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

AERO. DYNAMIC.

Dynamic beauty and aerodynamic shapes meet in the emotional design of the new FABIA model. This compact hatchback with sporty spirit refers to the ŠKODA brand's sports genes while excelling in aerodynamics.

AERODYNAMIC DESIGN

With a drag coefficient starting from 0.28, the car sets a new benchmark in its class. This is due both to the body shapes (descending roof and inclination of the windscreen, for example) and to many features adjusted (or specifically designed) to improve the car's aerodynamics. These include, among other things, the aero-optimised external side-view mirrors, an air curtain that streamlines airflow around the front bumper, and an active cooling air shutter, reducing the engine bay's airflow to the amount necessary to ensure that the engine is cooled. The special alloy wheels, which come with Aero covers, have also been designed with air resistance in mind.

AERO-TUNED FROM ROOF TO CHASSIS

The extended roof spoiler and vertical finlets that border the rear window help improve the aerodynamics and are also essential design elements. Equally important is the equipment that you don't see at first glance. The chassis covers reduce turbulence and provide a smooth path for the airflow under the car, which also improves the driving stability of the vehicle.

PANORAMIC ROOF

The dynamic exterior design can be enhanced by the optional panoramic glass roof, which stretches all the way from the windscreen to the roof spoiler.

HEADLIGHTS AND FOG LAMPS

The headlights with decorative crystalline elements always feature LED technology. The LED headlights in the basic version offer LED daytime running lights, LED dipped beam and full beam, and LED turn indicators. The full LED headlights also include LED side lights (designed for turn lighting and supporting the dipped beam at lower speeds) and LED corner function. The front fog lamps are located in a well-defined space in the lower part of the bumper. Besides their practical function, they also play a design role.

REAR LIGHTS

The new FABIA features distinctive horizontally designed rear lights, which are available in two versions. The basic version uses LEDs for reversing and the fog light, while the top-end option comes with full LED rear lights.

INTERIOR DESIGN

GETTING OUT IS OPTIONAL

Stepping into the car feels like stepping up in class. The new FABIA offers a spacious interior that features high-quality materials and unique possibilities in terms of design, technology and comfort. When inside, you'll never have to step out of your comfort zone.

VIRTUAL COCKPIT

With its 10.25" display, the digital instrument panel (Virtual Cockpit) can offer you on-board computer specifications in combination with other necessary information for your trip, such as navigation. You can choose from five layouts (Classic view shown) controlled via the View button on the multifunctional steering wheel.

AMBIENT LIGHTING

Make your space cosier and more comfortable with interior LED lights. They include ambient lighting running along the dashboard (that can be switched between white and red)*, and the centre console lighting, door handle lighting, and front and rear reading lights.

* This applies to cars with Amundsen infotainment. Without this system, ambient lighting comes in one colour: white or red.

DECORATIVE ELEMENTS

The new FABIA dashboard, decorated with chrome details, such as the air ventilation and instrument panel cluster frames, combines aesthetics with perfect functionality.

ROOMINESS

The knee and headroom in the rear raises the FABIA to the level of high-class cars.

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

ŠKODA CONNECT

This offer includes two categories of service. While Infotainment Online delivers real-time information to navigation about traffic, for example, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers an assistance service for any situation that needs it. These services are accessible within the MyŠKODA App.

PARKING POSITION

See the exact location of your car from anywhere. The MyŠKODA App shows the address and distance from the vehicle on your phone.

LOCK & UNLOCK

This feature allows you to comfortably Lock and Unlock your vehicle via MyŠKODA App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

ONLINE TRAFFIC INFORMATION

Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams. Also, local hazard information will warn you in case any inconvenience occurs on your way, such as difficult conditions or limited visibility.

CALENDAR

With the Calendar App, designed for work-related activities, you can spend your travel time productively and safely. The application allows you to conveniently access and interact with your calendar while driving. Using the navigation button, the Calendar App will navigate you to your planned meetings. You can also join conference calls using a connected mobile phone. All of the content is synchronised online and linked to your account for seamless transition between your devices.

SMARTLINK

With the SmartLink, the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with Apple CarPlay or Android Auto, which are also available wirelessly. (For further information regarding wireless functionality, contact your ŠKODA partner. For usage terms and compatibility information for SmartLink, visit our website.)

**SIMPLY
CLEVER**

SMART ISN'T JUST FOR PHONES

FRONT COMPARTMENT

In the centre console compartment, which features two USB-C ports, you will also find a pencil holder and universal clip. It can be used for cables and other small items.

The new FABIA comes equipped with a host of ideas. As the needs of the driver always come first, we came up with solutions that make everyday journeys effortless and the car a joy to drive.

USB IN THE ROOF PANEL

Located in the roof panel at the rear-view mirror, this USB-C port is ideal for charging devices mounted on the windscreen.

UMBRELLA COMPARTMENT

An ingenious compartment with original ŠKODA umbrella is fitted inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

REMOVABLE CUPHOLDER

For your drinks, a dual cupholder with Easy Open function can be placed on the centre console at the driver's and passenger's fingertips.

COMPARTMENT ON THE CENTRE TUNNEL

The practical equipment, which will be appreciated by passengers in the rear seats, includes a spacious storage compartment on the centre tunnel together with a flexible cupholder. When not in use, you can fold the cupholder down and increase the storage space.

DOUBLE POCKET

Organise your things even better with double pockets on the back of the front seats. Hide your notebook or laptop into the bigger pocket and your mobile phone into the smaller one.

FOLDABLE BACKREST

The foldable backrest of the front passenger seat gives the car even greater variability and allows you to transport objects with unusual dimensions.

**COMFORT
AND
SPACE**

TRAVEL COMFORT CLASS

The best tech tweaks are those that make your life easier without you even noticing them. We followed this motto when we designed the new FABIA. Everything from the smallest design details to practical function is conceived to make your journey truly comfortable.

RETRACTABLE MIRRORS

The automatically retractable external side-view mirrors fold in when the car is locked. This protects the mirrors from damage, especially when parking in a confined space, and you also have visual confirmation that you have locked your car. The driver's side mirror also features a dimming function that prevents glare from the car behind you.

KESY

You will quickly get used to the convenience of the "Keyless Entry, Start and exit System." In the new FABIA, the front and boot doors can be used to unlock or lock the car.

HEATED STEERING WHEEL

When the driver feels comfortable, then driving is safer. That's why the equipment range for the new FABIA includes a heated steering wheel. The heating function can be controlled via the button on the steering wheel or via the infotainment. Choose a heating level that suits you and enjoy the journey in comfort.

HEATED WINDSCREEN

With this handy function, you'll never have to scrape the windscreen again. And it's not just winter when it can be used. The windscreen heating, which is controlled via the infotainment, will quickly clear frost or condensation.

PHONE BOX AND USB

The phone box, suitable also for large display devices, creates an amplified signal for your mobile phone and, at the same time, wirelessly charges your device while driving. Two USB-C data ports located above the phone box allow you to easily connect and pair your external devices with the infotainment system.

JUMBO BOX AND DRINK HOLDERS

Safely store any small electronic devices in the Jumbo Box in the front armrest. You can also find a 12 V socket here. For your drinks, there are cupholders with Easy Open function on the centre console.

REAR ARMREST

When the middle rear seat is unoccupied, the armrest with drink holders can be folded down.

VENTS AND USB IN THE REAR

The vents located on the rear side of the front armrest allow rear passengers to easily adjust the airflow to suit them. Here you can also find two USB-C ports enabling mobile phone charging.

LED READING LIGHTS

Thanks to LED technology, rear passengers can use these powerful lamps without disturbing the driver. Besides, the driver can operate the rear lights straight from the driver seat (not shown). Interior LED reading lights front and rear come as part of the LED ambient package.

PANORAMIC VIEW

Enjoy the feeling of freedom and more space above your head with the panoramic roof, made entirely of special tinted glass and guaranteeing the highest safety standard as well as thermal climate comfort.

A HOME FOR EVERYTHING

It's always better to have your things in order. Whether it's at your home or in your car. That can be easily achieved in the new FABIA. Thanks to its generous luggage capacity and a host of simply clever details, everything will stay in the right place.

NET PROGRAMME

The set, including three nets, will reliably prevent your things from moving around. Plus, you will clearly see where you put everything.

MULTIFUNCTIONAL POCKET

Use the available space in the boot cleverly. A multifunctional pocket designed to stow clothing items and long, lightweight objects will come in handy.

CAPACITY

The luggage compartment of the new FABIA with a basic volume of 380 litres can be extended up to 1,190 litres by folding down the rear seats.

FLEXIBLE COMPARTMENT

The flexible compartment fixed in the side panelling grooves is ideal for carrying flowers, small toys, shopping, etc. You can always adjust the size of the compartment to suit your current needs. When not in use, it can simply be folded away.

SAFETY

TRAVEL ASSIST

The Travel Assist system combines Adaptive Cruise Control (including Front Assist) and Adaptive Lane Assist functions. For maximum safety, the system must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel. The Travel Assist system comes exclusively in combination with the Virtual Cockpit.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system, which operates up to speeds of 210 km/h, maintains a safe distance from vehicles in front of you.

ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

FRONT ASSIST

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

SIDE ASSIST

Using radar sensors in the rear bumper, Side Assist (which can detect other vehicles and harder to see objects like cyclists up to 70 m away) monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

Using the Side Assist sensors in the rear bumper, Rear Traffic Alert helps you reverse safely from a parking space during poor visibility.

It can even engage the brakes automatically if it detects imminent danger.

PARK DISTANCE CONTROL

Parking the car is easier and safer with the parking sensors integrated in the front and rear bumper, which check the car's distance from any obstacles.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place and safely parks in a row of parallel or perpendicularly parked vehicles.

LIGHT ASSIST

In addition to automatic high beam switching, Light Assist also includes rain sensor, automatically dimming rear-view mirror, and Tunnel Light, Coming Home, and Leaving Home functions.

MULTI-COLLISION BRAKE

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collision.

TRAFFIC SIGN RECOGNITION

The system uses the camera in the rear-view mirror to scan the traffic signs on the current stretch of road and notify the driver of traffic signs. The system is able to identify signs on both the left and right sides, as well as above the road. Moreover, it is able to identify variable traffic signs too (electronic information boards).

SAFE HAPPENS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can equip your car with up to nine of them.

FRONT DRIVER AND PASSENGER AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

PERFORMANCE

MORE POWER TO YOU

As we equipped this car with new, more powerful engines, the new FABIA has matured from an agile city companion to a reliable partner that can take you on longer trips with ease.

SPORTS STEERING WHEEL / DRIVING MODE SELECT

Your driving pleasure can be further enhanced by the multifunctional 3-spoke sports steering wheel in perforated leather. If the vehicle is equipped with a Driving Mode Select, the dynamic driving style can be supported by choosing the Sport mode from the profile selection menu, which also offers Normal, Eco, and Individual modes.

ENGINES

Our offer includes petrol engines with MPI as well as TSI technology. While MPI versions come with 48 kW* or 59 kW, TSI engines offer 70 kW, 81 kW, and 110 kW*. The 110 kW engine is four-cylinder, and is equipped with ACT (Active Cylinder Timing) function. At low engine loads, the ACT disconnects the middle two cylinders to reduce the vehicle's consumption, and your already economical ride becomes even more efficient.

* Available later in 2021.

FIRST EDITION

The FABIA has been a great companion to many generations. That's why we came up with the ŠKODA FABIA FIRST EDITION*, which pays tribute to its tradition. This vehicle embodies a stylish city car: it's practical, safe, comfortable, and stylish. Cut a dash with the unique exterior colours, 17" alloy wheels, and First Edition badge on the front wings. Personalise your first impressions and choose between two striking metallic colours: orange or white. And, of course, enjoy the comfortable interior that boasts top-quality materials and technology.

* Available later in 2021.

STYLE AND FUNCTIONALITY

The exterior of the car mixes unique decorative elements with perfect functionality. The stylish appearance is enhanced by the 17" Procyon black metallic brushed alloy wheels with black Aero covers. And the full LED headlights and full LED rear lights clearly meet the "see and be seen" requirement, increasing your confidence behind the wheel.

FIRST EDITION INTERIOR DESIGN

The interior is dominated by the copper colour tone, which perfectly embodies the character of a modern city car. In addition to the décor, even the upholstery and dashboard pad stitching are in copper. You can also enjoy top technical features in the interior, including the Virtual Cockpit and the new-generation Bolero 8" infotainment, which are standard for the First Edition.

CUSTOMISATION

ACTIVE

The standard equipment of the Active version includes a chrome front grille frame, external side-view mirrors and door handles in black, tinted windows, LED headlights (basic version) including LED daytime running lights, centre console with 12 V socket and drink holder, electrically-controlled front windows, central locking with remote control, plus more.

ACTIVE BLACK INTERIOR

A yellow Skoda car is parked on a paved path in a park-like setting. The car has a white kayak mounted on its roof rack. In the background, there is a stone bridge with arches and trees. A man is walking on the left, and a woman is walking on the right. A dog is running in the foreground on the right. The word "ACCESSORIES" is written in large white letters across the middle of the image.

ACCESSORIES

MAKE YOUR FABIA YOUR FABIA

Accessories aren't just fashion fads. With ŠKODA Genuine Accessories, you can transform your car by expanding its practicality, safety, and purpose, and make it a lot more suitable for your specific needs.

FRONT AND REAR BUMPER STRIPS – CHROMED

Chrome strips for the front and rear bumpers lend the vehicle a distinct air of luxury, thereby achieving a look that is both fresh and attractive.

DECORATIVE DOOR SILL STRIPS WITH STAINLESS STEEL INSERTS

Side door sill strips with stainless steel inserts are an accessory that can be used to enhance your vehicle's aesthetics. They also protect the paintwork around the door sills from dirt.

DECORATIVE DOOR SILL STRIPS - STAINLESS STEEL

Stainless steel side door sill strips with FABIA inscription, which perfectly follow the vehicle's contours, are an original feature with aesthetic and practical functions.

3D DECORATIVE DOOR SILL FOILS

These foils can be used to enhance your vehicle's aesthetics. They also protect the paintwork around the front door sill from dirt.

SMART HOLDER - MULTIMEDIA HOLDER

The holder for an external device, which can be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

SMART HOLDER - HOOK

Handbags and backpacks don't have to take up space on the back seats. Hang them from the smart holder hook that is fixed to the front headrests.

SMART HOLDER - CLOTHES HANGER

The clothes hanger, which can be mounted on the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

BIN FOR DOOR PANEL

The stylish waste bin, which perfectly fits your ŠKODA, is an elegant solution for dealing with rubbish in the car. It is effortless to use. The lid makes sure that any odour stays inside the bin along with your rubbish.

ALL-WEATHER MAT OVER THE TUNNEL

This accessory, which is a practical addition to the rear all-weather mats, protects the surface of the centre tunnel from dirt on footwear worn by rear passengers.

FOOTREST "LOUNGE STEP" BLACK 2PCS

The footrest helps to protect the floor while reducing the interior noise. Easy to remove, clean, and reuse.

PRESTIGE TEXTILE FOOT MATS – DOUBLE NUBUCK

They aesthetically complement the modern interior design and outline the footwell contours.

STANDARD TEXTILE FOOT MATS

The mats with non-slip surface capture dirt as well as moisture. They also reduce noise in the car interior making the ride even more comfortable.

ALL-WEATHER FOOT MATS

Thanks to their practical, smart design and material they optimally protect the floor from mud, dirt, and water.

DOUBLE-SIDED BOOT MAT

This classic example of a multipurpose accessory helps to keep the luggage compartment clean and prevents transported items and luggage from sliding around.

NETTING SYSTEM - GREY

The set of three nets is a practical and attractive accessory. It secures transported items in place and prevents them from sliding around while the vehicle is in motion.

BOOT DISH WITH ALU PARTITION AND SLIDING DIVIDING ELEMENT

If you often carry things that might dirty the luggage compartment, the plastic boot dish, which can be easily removed and washed, is the perfect solution. The dish can be equipped with an aluminium partition complemented by the sliding dividing element, enabling you to split the space according to your needs.

FLEXIBLE COMPARTMENT

The flexible compartment is especially handy for transporting various small items, including mandatory equipment. The compartment is fixed but flexible at the same time, so it is very easy to use. When not in use, you can simply pull it closed.

PROTECTIVE FOIL FOR THE LOADING EDGE

You can protect the loading edge of your rear bumper with a smart strip of transparent film made of high-quality polyurethane. This PU material is highly resistant to scratches or rupture, thus preventing mechanical damage to the loading edge and bumper when loading or unloading transported items.

PROTECTIVE MAT FOR THE LOADING EDGE - WARNING ELEMENTS

This product provides optimum protection for the rear bumper as well as the leading edge. At the same time, the triangle-shaped stripes improve the visibility of your car. It can also be used in emergency situations.

SUN SHADE – PANORAMIC GLASS ROOF

This sunshade for the panoramic glass roof is a useful accessory all year round. Nevertheless, it will be particularly appreciated in the summer months when helping to protect the car's interior from scorching heat.

NET UNDER PARCEL SHELF

The net fixed under the luggage compartment cover provides an additional space for storing lightweight objects that are transported separately from other luggage. It also neatly holds the sunshade for the panoramic glass roof.

BABY MIRROR

With the baby mirror, you will always be able to see what your children are up to in the back. By the same token, it is calming for children to have visual contact with you. The baby mirror allows you to quickly check on your children while maintaining full control of the car when driving.

CHILD SEATS

Each type of child safety seat from the ŠKODA Genuine Accessories range undergoes a series of rigorous tests. You will find seats designed for children up to 36 kg in our comprehensive range.

LOCKABLE SKI OR SNOWBOARD RACK – SLIDE OUT

The new slide out lockable rack, which has passed ŠKODA's rigorous load tests and safety tests, is a simple solution for transporting your skis or snowboard on the car roof. It can carry 4 pairs of skis or 2 snowboards.

BICYCLE CARRIER FOR TOW BAR

The rack is extremely sturdy, easy to fit, and easy to use – simply lift the bicycle up a little to secure it in place. It works with all types of tow bars and is available in 2- and 3-bicycle variants.

LOCKABLE BICYCLE RACK

You can securely attach the lockable bicycle rack with aluminium profile onto the basic roof rack.

ROOF BOX – 400 LITRES

Enjoy a larger capacity and easier loading with the ŠKODA roof box, which enables you to transport up to 6 pairs of skis or 5 snowboards, as well as bulky luggage, pushchairs, etc., that would not fit into the boot of a fully occupied car. This lockable box features an advanced aerodynamic shape and UV protection, ensuring that your box will always look new. It is available in black or silver.

FRONT AND REAR MUD FLAPS

The front and rear mud flaps protect the lower areas of the vehicle body from dirt and damage caused by stones and debris striking them. Mud flaps are useful especially in winter, when the corrosive salt that is spread on the roads generally sticks to the mud flaps rather than the vehicle body.

WHEEL CARE AND STYLE PACK

Car wheels are like shoes. No matter whether the "shoes" of your ŠKODA are stylish, sporty, or purely functional, our WHEEL CARE & STYLE PACK (wheel covers, valve caps, safety bolts) offers a multitude of items which will make your wheels even more attractive and totally unique!

COVER FOR A COMPLETE SET OF WHEELS

This set of high-quality polyester wheel covers enables easy wheel transport and handling.

DECORATIVE VALVE CAPS

With tyre valve caps bearing the ŠKODA logo or ŠKODA Motorsport green emblem, your car will look stylish down to the smallest detail.

SAFETY BOLT SET

The safety wheel bolts supplied with a special adapter provide your vehicle with greater protection against the attempted theft of the wheels.

BOLT CAPS

Our offer includes decorative bolt caps for wheels with and without safety bolts.

– combined	5.01–5.46	5.00–5.54	4.98–5.58 (5.47–5.99)
CO ₂ emissions WLTP* (g/km)			
– low	136.24–147.71	146.80–158.82	148.87–162.02 (168.84–181.69)
– medium	108.37–117.82	108.10–122.74	113.22–125.66 (123.35–137.42)
– high	101.18–109.84	97.15–109.07	97.23–110.71 (106.69–119.22)
– extra high	118.81–130.29	117.81–129.79	113.19–128.04 (123.11–133.85)
– combined	113.57–123.67	113.30–125.71	113.03–126.80 (124.13–136.02)
POWER TRANSMISSION			
Type	Front-wheel drive	Front-wheel drive	Front-wheel drive
Clutch	Hydraulic single dry clutch disc	Hydraulic single dry clutch disc	Hydraulic single dry clutch disc (Twin coaxial clutch, electro-hydraulically operated)
Transmission	Manual 5-speed	Manual 5-speed	Manual 6-speed (Automatic 7-speed DSG)
WEIGHT			
Kerb weight – in standard version with 75 kg driver (kg)	1,116–1,146	1,142–1,171	1,165–1,194 (1,187–1,216)
Payload – incl. driver and extra equipment (kg)	404–528	405–528	405–528 (405–528)
Total weight (kg)	1,509–1,609	1,538–1,660	1,561–1,680 (1,583–1,709)
Trailer load without brakes (max. kg)	550–570	570–580	580–590 (590–600)
Trailer load with brakes – 12% (max. kg)	800	1,000	1,100

* World harmonized light-duty vehicles test procedure.

() Applies to versions with automatic transmission.

FURTHER SPECIFICATIONS

Body		Exterior dimensions	
Type	5-seater, 5-door, 2-compartment	Length/width (mm)	4,108/1,780
Drag coefficient C _w	0.278–0.315 according to engine version	Height (mm)	1,459
Turning circle diameter (m)	10.7	Wheel base (mm)	2,564
Chassis		Track front/rear (mm)	1,525/1,509
Front axle	McPherson suspension with lower triangular links and torsion stabiliser	Clearance (mm)	138
Rear axle	Compound link crank-axle	Interior dimensions	
Braking system	Hydraulic dual-diagonal circuit braking system vacuum assisted	Lateral room front/rear (mm)	1,428/1,417
– front brakes	Disc brakes with inner cooling and with single-piston floating calliper	Effective head room front/rear (mm)	1,032/976
– rear brakes	Drum brakes	Luggage storage space (max. l)	
Steering	Direct rack-and-pinion steering with electro-mechanical power steering	Without spare tyre, with rear seat backrests –	
Wheels	5J x 14"; 5.5J x 15"	upright/down	380/1,190
Tyres	185/70 R14; 185/65 R15	Tank capacity (l)	40
