

THE ALL-NEW ŠKODA

KAROQ

ŠKODA
SIMPLY CLEVER

**THE ALL-IN-ONE CAR
FOR YOUR
ALL-IN-ONE LIFE**

BEAUTY IS EVERYWHERE

Inspired by our heritage of Czech crystal, with its elegantly sculpted lines, our new SUV bears the same levels of refinement where beauty and strength go hand-in-hand wherever you look.

FRONT VIEW

The confident expression of the car is enhanced by sharply cut headlamps and fog lamps, which are located at the height of the grille confirming the car's outdoor character. With regards to functionality the top-end solution offers LED headlamps with LED daytime running lights and AFS (Adaptive Frontlight System) as well as LED fog lamps.

SIDE VIEW

While the angular wheel arches and protective sill covers accentuate the car's SUV character, the continuous play of light and shadow defined by the ŠKODA design language puts emotion and grace into KAROQ's appearance.

PANORAMIC SUNROOF

The electrically-adjustable panoramic roof window, which allows you to create a large open space above the front seats, will enhance the attractive look of the car and will bring more riding enjoyment to the whole crew. You can enjoy new vistas as well as the feeling of freedom and space.

REAR VIEW

Remarkable rear lights, also with the familiar C-shaped illumination, refer to Czech cubism and the country's glass-making tradition. Just like the rear lights, even the license plate lighting is equipped with LEDs.

BEAUTY LIES IN DETAILS

The KAROQ provokes a feeling of comfort at first sight and first touch. The new Columbus infotainment system with 9.2" display offers comfortable touch control as well as gesture control enabling you to go through the menu or various lists. In cold weather you will appreciate the heated steering wheel. And LED ambient lights running along the inside of the car will set the perfect mood for any journey.

WELCOME TO MISSION CONTROL

We've turned the car into a cockpit. The beautiful, yet practical Digital Instrument Panel takes all the information you need and puts it where you need it most – right in front of your eyes. Be it driving information, navigation, infotainment or communication services, it's all there, all the time.

DIGITAL INSTRUMENT PANEL

A perfect overview is provided by the Digital Instrument Panel which can display on-board computer specifications in combination with other information such as navigation for example. You can choose from three basic and one reduced view option, respective layouts, controlled via the View button on the multifunctional steering wheel. They include the Classic layout, Digital special layout with information profile, Digital layout with large view and Reduced view (suitable during night driving or on the motorway).

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA CONNECT including two categories of service – Infotainment Online and Care Connect – is your gateway to a world of unlimited communication possibilities.

PARKING POSITION

Retrieve the pinpoint location of your car in large parking spaces from anywhere on your mobile phone, with the address, time and date of parking displayed.

EMERGENCY CALL

The KAROQ's connectivity includes an SOS line. This emergency system is activated by pushing the red button placed on the roof. In case of a crash, an emergency call is made automatically.

ONLINE TRAFFIC INFORMATION

Always take the best route: Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents or traffic jams.

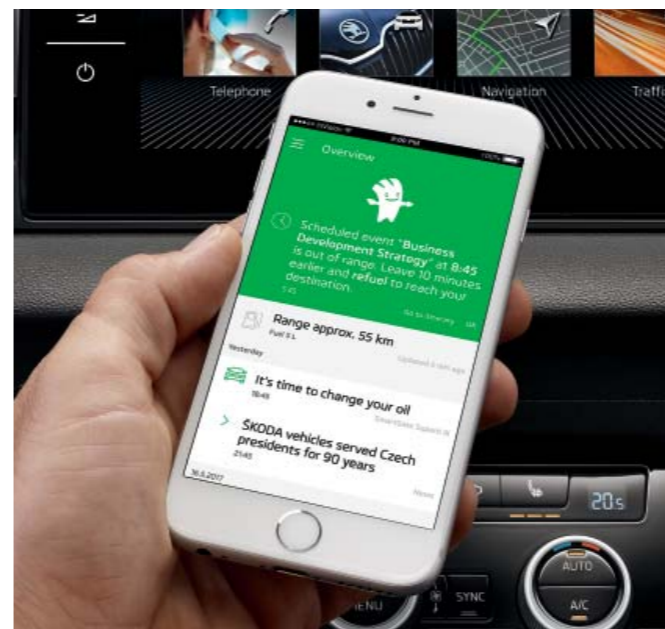

WEATHER

Get the latest weather report for your current location or destination, with detailed forecasts, including precipitation predictions and warnings.

MyŠKODA APP

Meet Paul, the interactive assistant of the MyŠKODA App (for Android or iOS systems), who can be helpful in various daily situations. You can use him to access information about your car or for a complete description of what controls what, what each indicator lamp means, etc. Paul can also keep an eye on the dates in your planner. Not only will you never forget a meeting, but your assistant will also advise you on how to get there.

PHONE BOX

This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving.

SMARTLINK+

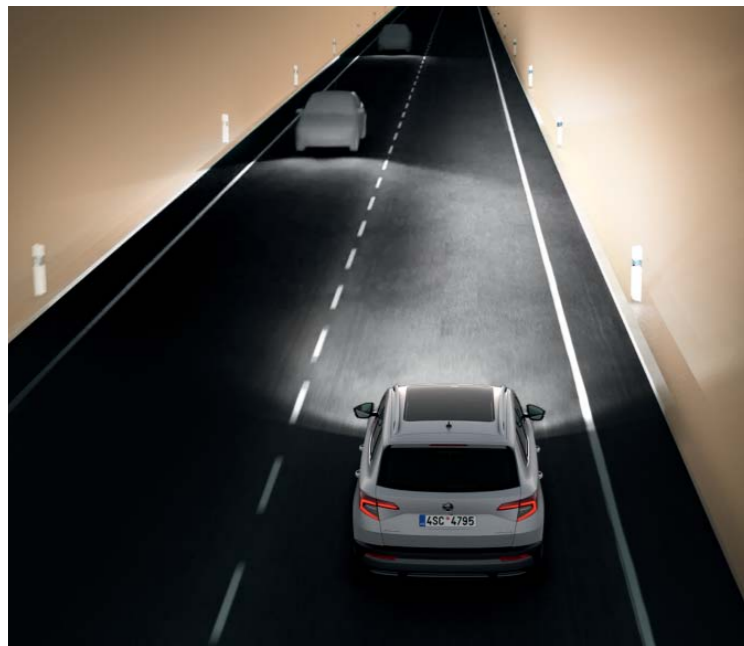

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay and Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via WiFi or cable to access interesting data about your drive, like driving economy, driving dynamics or service information.*

* Visit our website for usage terms and compatibility information for SmartLink+.

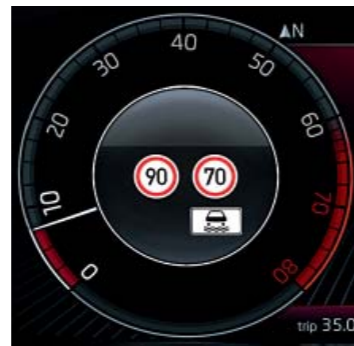

EXTRA EYES ON THE ROAD

Enjoy your ride in total comfort, while having a number of assistant systems monitoring traffic, ready to warn you in case of any lurking danger.

AUTO LIGHT ASSIST

Your Light Assist will switch to high beam and back automatically, increasing comfort and safety in traffic.

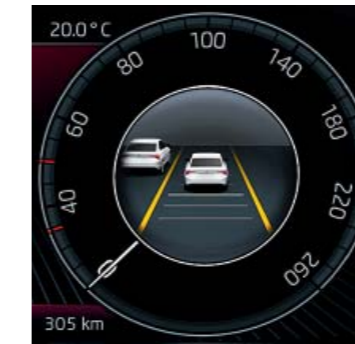

TRAVEL ASSIST

This helper uses co-operation between the multifunctional camera and the navigation system to recognise and display certain traffic signs on navigation and the Maxi DOT/Digital Instrument Panel displays.

LANE ASSIST

You can leave the task of keeping the car in the correct lane to Lane Assist. The system is displayed on Maxi DOT or Digital Instrument Panel.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system maintains a safe distance from vehicles in front of you.

BLIND SPOT DETECT

Using radar sensors in the rear bumper Blind Spot Detect monitors the blind areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

This assistant, which comes as part of the Blind Spot Detect system and uses the same radar sensors, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

GET A GRIP ON ANY TRIP

Whether you are crossing mountain trails or zigzagging through city streets, the ŠKODA KAROQ will keep you glued to the road. Just fasten your seat belts, select the driving mode and conquer the terrain under you.

ALL-WHEEL DRIVE

The 4x4 drive is provided by an inter-axle electronically controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive. For extraordinary driving experience and comfort you can choose the combination of the 4x4 drive and automatic 7-speed DSG (Direct Shift Gearbox).

DYNAMIC CHASSIS CONTROL

The car with 4x4 drive can be equipped with the adaptive chassis (DCC), which continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. DCC always comes in combination with Driving Mode Select and allows you to choose Comfort, Normal or Sport mode.

OFF-ROAD MODE

With the intelligent Off-Road-Mode system, which is available for the 4x4 version (in combination with Driving Mode Select), you can handle even extreme terrain. It is designed to adjust the characteristics of the engine, electronic assistants and stability control systems. The activated functions are shown on the infotainment display.

IMAGE DISCLAIMER

The images presented in this catalogue (brochure) are used for illustrative purposes only and are not intended to form part of any contract or warranty. They display pre-series cars and certain illustrations, features, parts and equipment may differ from the actual production cars and from country to country. To get the exact specification of features, parts and equipment, please get in touch with your nearest local ŠKODA dealer.
