A BRAVE NEW WORLD

The ŠKODA SCALA is a bold step forward for the brand. Its sophisticated shapes create a striking play of light and shadow that blend timeless design with sporty character. Its dynamic silhouette is embraced by a practical spirit that makes the car the perfect partner for every stage of life.

The SCALA also offers abundant technologies uncommon in the compact hatchback segment. Advanced assistance systems and a new generation of infotainment mean you can stay safe without compromising on fun, on every journey.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

GIVE THE EVERYDAY A SPORTY JACKET

Good design agrees with the heart and the head. Like in the new SCALA. This compact hatchback with a sporty spirit represents the next phase of ŠKODA's design language, while emphasising the strong relationship this brand has with its own tradition and history.

BLACK FEATURES

To add a more sporty and individual signature to daily driving, the SCALA can be enhanced with the optional black panoramic roof, roof spoiler, glass extended over the 5th door and attractive 18" Vega Aero alloy wheels, which can have a considerable impact on the overall aerodynamic performance of the car.

FRONT VIEW

Distinguished exterior features like the front grille or sharply cut headlamps in the shape of an arrow give the car an authentic look with a strong identity. Crystalline elements etched on the headlamps allude to Czech crystal craftsmanship, a declaration of the brand's proud lineage.

AERODYNAMICS

Every edge, contour and dimension of the car has been created to optimise aerodynamics. A desirable balance between its width and height projects safety and reliability.

SIDE VIEW

Characteristic lines on the sides of the car enhance its dynamics as shaped by ŠKODA's design language. The impression is even stronger with SunSet tinted windows, which not only accentuate the attractiveness of the exterior, but also protect rear passengers from glare.

REAR VIEW

As a badge of honour, the ŠKODA name proudly embraces the 5th door. This marks the confidence of a brand that has transformed its design philosophy. In models equipped with darkened glass, part of the rear lights are integrated into the glass.

**BEST VIEWED
FROM ANY ANGLE**

**LIGHT
DESIGN**

REMAIN IN THE SPOTLIGHT

Light doesn't just illuminate. It inspires. The unique headlamps and slim long rear lights make the car instantly recognisable. The crystalline lamp design with integrated LEDs represents a perfect blend of Czech crystal tradition and modern technology.

FULL LED HEADLAMPS

The top-end option is all about LED technology including corner function. The strip of LEDs for daylight driving positioned at the upper part of the headlamp lends the car its sporty charisma.

FULL LED REAR LIGHTS

The SCALA features horizontally designed rear lights where the familiar C-shape illumination has been updated with a modern twist. This original light signature is accompanied by perfect functionality. The top-end option comes with the full LED rear lights, which are fitted with animated turn indicators – for the first time ever on any ŠKODA. These not only indicate where the driver is about to turn, but also add dynamism to the car.

INTERIOR DESIGN

IT'S WHAT'S ON THE INSIDE THAT COUNTS

Stepping inside the SCALA is equally impressive. The well-appointed interior radiates with sleek design cues, exceptional spaciousness and cutting-edge digital technology.

STYLE AND FUNCTIONALITY

The SCALA's interior is furnished with quality materials and great craftsmanship. Multiple combinations of upholstery and décor mean you can give your car a unique personality. In the roof panel, you can find an additional USB-C slot which is ideal for charging devices mounted on the windscreen.

VIRTUAL COCKPIT

The Virtual Cockpit displays on-board computer specifications in combination with other information such as navigation. You can choose from five layouts (extended view shown) controlled via the 'View' button on the steering wheel. The SCALA's Virtual Cockpit features a 10.25" display.

AMBIENT LIGHTING

Make your space more cosy and comfortable with LED ambient lights running along the dashboard. Your car can be equipped with white, red or copper lighting.

CONNECTIVITY

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment and useful information. It also offers 24/7 assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

PARKING POSITION

See the exact location of your car from anywhere. MyŠKODA App shows the address, time and date of parking on your phone.

LOCK & UNLOCK

This feature allows you to comfortably Lock and Unlock your vehicle via MyŠKODA App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

ŠKODA CONNECT

This offer includes two types of service. Infotainment Online delivers real-time information about traffic and more. Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers assistance for any situation that needs it. These services are accessible within the MyŠKODA App.

eCALL+

An SOS call is made automatically in the event of an emergency on the road. The system can also be activated manually by pressing the red button on the roof console. With the eCALL+ feature, information such as the vehicle's location or the number of people in the vehicle is provided to the first responders.

ONLINE MAP UPDATE

Not only you do not need your own data for map updates, but the update is also completely seamless. You don't need to give it a another thought, as you will always have the latest maps available.

ONLINE TRAFFIC INFORMATION

Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams. Also, local hazard information will warn you in case any inconvenience occurs on your way, such as difficult conditions or limited visibility.

SHOP / INFOTAINMENT APPS

Thanks to the shop accessible via the infotainment system, you can purchase data plans, extend your ŠKODA Connect licence, and download infotainment apps. For example, you can get a detailed weather report for your current location or anywhere else with the Weather app. Infotainment apps will be regularly updated and more apps will be added over time.

**SIMPLY
CLEVER**

THE CAR WITH AN IQ

The SCALA is equipped with a range of Simply Clever details that can handle all your needs. From loading your luggage or folding your towing device to adjusting the interior space to find room for big and small things, these thoughtful features take the headache out of travelling.

FOLDABLE BACKREST

The foldable backrest of the front passenger seat gives the car even greater variability and allows you to transport objects with unusual dimensions.

TOWING DEVICE

The SCALA has a foldable towing device with electric release. The switch is in the luggage compartment.

ELECTRICALLY-CONTROLLED 5TH DOOR

It opens and closes at the mere touch of a button on the remote control or in the driver's door, especially handy in unfavourable weather. You can also adjust the upper door position to suit your needs. A button for closing the 5th door is also located on the door itself.

DOUBLE FLOOR

The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

**ICE SCRAPER**

The ice scraper, which is mounted on the fuel cap, can also be used to measure the depth of the tyre tread.

**LIQUID RESERVOIR**

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

LUGGAGE COMPARTMENT

DON'T PACK LIGHT

Don't think twice about what to take or not. The generous luggage compartment capacity of 467 litres, and 1,410 litres after folding down the rear seats, puts this car at the top of its class. In addition there are many options for ensuring your stuff stays in its place, without damaging the car.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

NET PROGRAMME

One horizontal and two vertical nets increase the flexibility of the luggage space while firmly securing objects.

NET UNDER THE COVER

This net under the luggage compartment cover can serve as a safe storage place for items that you would like to transport separately from other objects.

COMFORT

TRAVEL COMFORT CLASS

Whatever comfort means to you, you'll find it right inside the SCALA. Travel in total ease with smart details like power connectors and sophisticated infotainment with GPS. In other words, unmatched comfort in its class.

AMUNDSEN 9.2" INFOTAINMENT

Attractive design is accompanied by perfect functionality. In addition to the touch or gesture control, you can operate the device via Laura, the digital assistant. This new enhanced and online-based voice control system can answer queries about a wide variety of topics and follows commands. For example, it will start navigation to a desired destination, find a favourite piece of music or take dictation for an SMS. The Web radio feature also comes as a bundle in combination with the Amundsen infotainment system. It allows you to expand the usual portfolio of conventional stations with your other favourite channels, podcasts, and news. You can tune in and listen in high quality to any radio streaming service in an area covered by the Internet. Combined with the Virtual Cockpit, the Amundsen infotainment system also offers the Traffic Sign Recognition function.

ONLINE PERSONALIZATION

You will appreciate this service especially if your car is driven by multiple users. Set the Individual driving profile, digital dashboard layout or air conditioning parameters – the settings will be synchronized with your ŠKODA ID account. Therefore next time you log in to your car after it was driven by someone else, you can comfortably set off with your preferred settings. With online personalization, you can set your preferred settings not only in your car, but in any ŠKODA vehicle that allows it.

HEATING FUNCTIONS

The heating function of the front windscreen, which quickly clears frost or steam, and heating of the multifunctional steering wheel are controlled via the infotainment system.

PHONE BOX / USB

The SCALA comes with an enlarged phone box which creates an amplified signal for your mobile device and, at the same time, wirelessly charges your phone while driving. This compartment is not only easily accessible, but is also suitable for large display devices. Two USB-C ports located in a centre console allow you to easily connect your external devices without the need for dongles or adapters.

KESY

The car equipped with KESY (Keyless Entry, Start and exit System) or with the simpler version Easy Start features a Start/Stop button on the steering column.

**RETRACTABLE MIRRORS**

The automatically retractable external side-view mirrors fold in when the car is locked, thus protecting them against damage.

**CRUISE CONTROL**

Practical Cruise Control or advanced Adaptive Cruise Control up to 210 km/h (see Safety chapter) are both available.

ELECTRICALLY-ADJUSTABLE DRIVER SEAT

For the best feeling behind the steering wheel, we offer you the electrically-adjustable driver seat.

**HEATED SEATS / USB**

In cold weather, your friends and family will appreciate the heated rear seats, which are regulated by a separate control on the rear side of the front armrest. Two USB-C slots enable universal mobile phone charging.

**ŠKODA SOUND SYSTEM**

Enjoy absolute sound clarity on the Sound System developed by ŠKODA for the SCALA. The system features ten speakers, including a central speaker in the dashboard and subwoofer in the luggage compartment. Among other features the sound can be adjusted according to how many people are in the car and where they are sitting via the All, Front and Driver profiles. The device offers a total power output of 405 watts.

SAFETY

TRAVEL ASSIST

Travel Assist combines Adaptive Cruise Control (including Front Assist), Adaptive Lane Assist, and Traffic Sign Recognition functions. For maximum safety, it must be constantly monitored by the driver. That's why a capacitive steering wheel detects the driver's tactility, providing an interactive interface to the system. If the driver is not engaged in driving, this behaviour is detected by the capacitive steering wheel. Travel Assist comes exclusively in combination with the Virtual Cockpit and Amundsen infotainment system.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system, which operates up to speeds of 210 km/h, maintains a safe distance from vehicles in front of you.

ADAPTIVE LANE ASSIST

The system is capable of keeping the car in the middle of the correct lane and of alerting the driver in case of deviation. It can also take control of the car in the event of lane changes during roadworks.

FRONT ASSIST

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

ADDITIONAL EXPERTS ON BOARD

You can encounter various things on the road. To ensure that the car is ready to handle all situations that may occur en route, additional assistants with multiple functions are on hand to help or fill in for the driver.

SIDE ASSIST

Using radar sensors in the rear bumper, Side Assist which can detect other vehicles and even less detectable objects like cyclists up to 70 m away, monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

This assistant, which comes as part of the Side Assist system, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

MANOEUVRE ASSIST

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 8 km/h). If an obstacle is detected, based on the distance from the obstacle and the car's speed, the system engages the emergency braking.

PARK DISTANCE CONTROL
Parking the SCALA is easier and safer with the parking sensors integrated in the front and rear bumper, which check the car's distance from any obstacles.

PARK ASSIST
Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place and safely parks in a row of parallel or perpendicularly parked vehicles.

AUTO LIGHT ASSIST
Your Light Assist will switch to high beam and back automatically, increasing comfort and safety in traffic.

HIDDEN BODYGUARDS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can have your car equipped with up to nine of them.

FRONT AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

PERFORMANCE

POWERFUL, NOT POWER HUNGRY

Quiet, flexible, reliable and economical - that describes each of our engines on offer with the SCALA. Regardless of whether you choose a petrol or CNG drive, your SCALA will always behave like a snappy hatchback.

ENGINES

Our offer includes 70 kW, 81 kW and 110 kW petrol engines with excellent acceleration and high torque. While the 70 kW engine comes with manual 5-speed transmission, other engines are available with both manual 6-speed transmission and 7-speed DSG. You can also opt for a G-TEC version with 66 kW engine, driven by compressed natural gas (see G-TEC section).

DRIVING MODE SELECT

Activated with the mode button on the centre console, Driving Mode Select offers Eco, Normal, Sport and Individual modes. If the vehicle is equipped with a lowered chassis that is fine-tuned with the Sport Chassis Control, you can choose between Sport mode and Normal mode via Driving Mode Select.

DSG CONTROL

The automatic 7-speed DSG can be comfortably controlled via the multifunctional steering wheel.

ACCESSORIES

MADE BY ŠKODA, DESIGNED BY YOU

Accessories aren't just fashion fads. With ŠKODA Genuine Accessories, you can transform your car by expanding its practicality, safety and purpose, and make it a lot more suitable for your specific needs.

SMART HOLDER – CLOTHES HANGER

The clothes hanger, which can be mounted on the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

SMART HOLDER – MULTIMEDIA HOLDER

The holder for an external device, which can also be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

SMART HOLDER – HOOK

Handbags or backpacks don't have to take up space on the back seats. Hang them from the smart holder hook fixed to the front headrests.

NETTING SYSTEM – COPPER

The set of four nets is a practical and attractive accessory. It secures transported items in place and prevents them from sliding around while the vehicle is in motion.

DOG SAFETY BELT / BACK SEAT PROTECTION

If one of your usual passengers is a dog, we recommend equipping your car with a special safety belt (size S - XL). You will also appreciate the back seat protection.

SKI AND SNOWBOARD RACK

The lockable ski and snowboard rack provides capacity up to four pairs of skis or two snowboards. Rack is lockable to prevent stealing transported equipment.

BICYCLE CARRIER FOR TOW BAR

The rack is extremely sturdy, easy to fit, and easy to use – simply lift the bicycle up a little to secure it in place. It works with all types of tow bars and is available in 2- and 3-bicycle variants.

ROOF BOX – 380 LITRES

The 380 litres roof box can hold five pairs of skis or four snowboards. The box is made of durable plastic and has a special UV protection to keep it looking new. It is equipped with a security central lock that controls several locking points.

ROOF BOX – 400 LITRES

Using a roof box solves the common problem of transporting luggage that does not fit in the boot of a fully occupied car when travelling not only for winter sports. It is available in silver or black.

WHEELS

18" VEGA black gloss alloy wheels, brushed

18" CRATER anthracite metallic alloy wheels, brushed

17" BRAGA anthracite metallic alloy wheels, brushed

17" VOLANS black gloss alloy wheels, brushed

16" NANUQ silver alloy wheels (may be used with 16" snow chains)

16" CASTOR silver metallic alloy wheels

WHEEL CARE & STYLE PACK

Car wheels are like shoes. No matter whether the "shoes" of your ŠKODA are stylish, sporty or purely functional, our WHEEL CARE & STYLE PACK (wheel covers, valve caps, safety bolts) offers a multitude of items which will make your wheels even more attractive and totally unique!

BOLT CAPS

Decorative bolt caps for wheels with and without safety bolts.
